

**MOV:E**  
your  
limits!

# MOV:E

If you don't want to be restricted by the building infrastructure or extension cables, MOV:E is the right choice. The XXL energy store provides sufficient power to run and charge all common office devices – from laptops through to digital flipcharts.

The product design is also impressive with a simple yet timeless style combined with high-quality materials. MOV:E is available in elegant black or classy aluminium. Customised, individual colour designs are available upon consultation. Optional accessories such as an adapter for attaching a safety lock complete the functionality of the MOV:E.

The extra-strong MOV:E XXL energy store is “Made in Germany” and meets the highest safety requirements as certified by the VDE (IEC). We like to MOV:E it, MOV:E it!
