MOVE

MOV:E your limits! If you don't want to be restricted by the building infrastructure or extension cables, MOV:E is the right choice. The XXL energy store provides sufficient power to run and charge all common office devices – from laptops through to digital flipcharts.

The product design is also impressive with a simple yet timeless style combined with high-quality materials. MOV:E is available in elegant black or classy aluminium. Customised, individual colour designs are available upon consultation. To complete the functionality MOV:E is optionally available with an adapter for attaching a safety lock.

The extra-strong MOV:E XXL energy store is "Made in Germany" and meets the highest safety requirements as certified by the VDE (IEC). We like to MOV:E it, MOV:E it!

BENEFITS

- **Plug and Play earthing contact (CEE7/3), USB-A, USB-C**
- **Flexible, portable power supply**
- **Easy to use**
- **Fast charging**
- **Design elements with a special feel**

**BACH
MANN**
We power your life.
