

SENSE

ENJOY SHARE RELAX COOK

Always there when no hand is free

What seems like a seamless design element reveals itself as a true innovation: SENSE is the first kitchen socket to open automatically as soon as a hand approaches – completely touch-free. Once no device is plugged in, the unit closes again automatically.

A built-in sensor ensures intuitive, everyday comfort. Buttons and covers are a thing of the past. A three-second touch lets you lock the function – perfect for cleaning or use around children.

With a mounting depth of only 40 mm, SENSE fits into narrow spaces such as above drawers. The optional USB-A/C charger with 22-watt Power Delivery offers fast and reliable charging.

Benefits

- Contactless opening and closing
- Intelligent sensor control
- Reliable locking function
- Optional 22-watt USB A/C Charger
- Shallow mounting depth of just 40 mm
- Elegant surfaces in stainless steel or black
